GenAl Training Methodologies: Insights for Marketing Teams

Many marketing teams have integrated generative AI as a standard technology into their toolkits. As the technology has soared and outpaced many expectations, it is critical for marketers to familiarize themselves with the technology. How are marketing leaders guiding GenAl training across their teams today?

Most marketers do not use a formal model to evaluate the effectiveness of GenAI training, but rely on employee surveys and one-one-one discussions

Most marketers feel their current approach to GenAI training is effective

Respondents: 50 Marketing leaders whose organization

uses GenAl as part of their marketing tech stack

in discussions with peers and share knowledge in real time.
